

## PRODUCT ADVANTAGE

High Sensitivity

Alarm Light

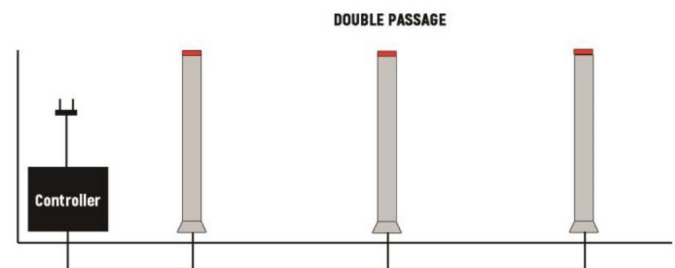

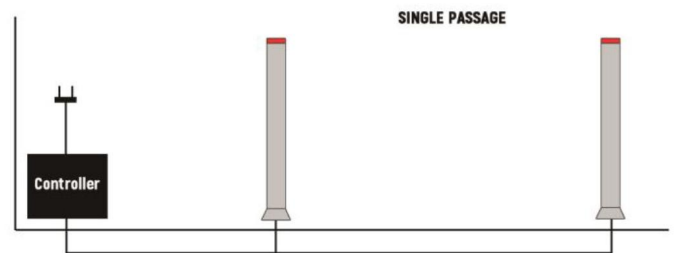

Low Power Consumption

Alarm Volume

## OPERATIONS

Model No	EM02
Frequency	920.50 MHz ~ 924.50MHz
Recognition Rate	≥ 100 labels / sec
Detection Range	80cm
Material	ABS Plastic and Acrylic
Frame Color	White
Dimension	1450*550*40mm
Operating Voltage	110 - 220V
Temperature	-5°C to 50°C

## OPTIONAL PARTS

EM LABEL

EM DEACTIVATOR

# EM02

## Electronic Magnetic (EM) EM LIBRARY SYSTEM

The EM02EM System is manufactured using high quality acrylic pad and ABS plastic material. It has hollow design, which makes it aesthetically pleasing and resistant to abrasion and wear.

It produces high level detection in all three label orientations with an enhanced aisle width of up to 80cm –subject to the configuration and onsite electrical noise level.

This innovative new system has been designed to meet the exit protection needs of a wide range of applications including: high-end cosmetic stores, libraries, archives, book stores, pharmacies, wine shops, galleries etc. The EM02 EM System is supplied on a worldwide basis.
